JET AIR SYSTEMS

INTELLI-JETS PROGRAM

To Be Competitive In Today's Marketplace,

you need to be resourceful and responsive to the needs of your clients. In this fast paced business world, there is not a more powerful business tool than the corporate jet.

Traveling by private corporate jet puts you in control of your business day. Immediate accessibility to ten times the destinations of commercial airlines and the ability to meet crucial scheduling demands at a moment's notice can be the difference between your success and...well, better luck next time.

For years, fractional ownership of business jet aircraft has promised more for less. At last, the promise is fulfilled. Jet Air Systems Intelli-JETS fleet of quality, new and pre-owned jet aircraft offers state-of-the-art aviation and luxury without the high costs. Our Intelli-JETS program can extend your travel budget by as much as 40% over the competition. Jet Air Systems Intelli-JETS program is the smartest approach to business jet ownership.

Jet Air Systems Intelli-JETS program can save you thousands of dollars over chartering and millions over conventional jet ownership. You still *enjoy all the benefits and convenience of private jet ownership but a fraction of the cost.* You'll avoid the delay and hassles of large commercial hubs and gain direct access to your important business and personal contacts via 5,000 airports nationwide. No client should be too remote to deserve your face-to-face attention.

1.877.2.JetAir

Jet Air Systems Intelli-Jets Program Offers More For Less.

With our Intelli-JETS program, you gain the ability to schedule multiple destinations into any business day and still make it home in time to meet your personal obligations...all in one day's work. Or if it's strictly pleasure you're seeking, access to your own private jet is without a doubt your fastest ticket to and from paradise.

Imagine having a complex capital asset working for you that doesn't demand a big slice of your time and business dollar. Intelli-JETS ownership of corporate aircraft not only alleviates travel management headaches, but enhances your productivity. We care for your needs with the highest standards so that you can take care of business worry-free.

Jet Air Systems manages the flight and ground crews. Thus, you avoid the need to incorporate the high and unpredictable costs of maintaining an in-house aviation department.

Combined with our reputation for world-class service, guaranteed availability and superior savings, there is no better aviation value in the skies.

We Are Taking Jet Ownership To New Heights.

Our unique program of shared ownership will increase your company's productivity, earn you a valuable tax advantage and buy you more time and flexibility than you ever imagined. Corporate jet travel allows you to do in a day what takes your competition weeks to accomplish. And you are always in control with availability just a phone call away.

If you're considering traveling in the privacy, security and comfort of your own business jet, if you're ready to experience unprecedented levels of productivity, if you're looking to stretch your company's travel dollar and demonstrate your commitment to growth and fiscal responsibility, now is the time to contact Jet Air Systems.

- Guaranteed Availability
- Tax Advantage
- Buy only what you need
- In-flight Hours
- High Residual Values
- Guaranteed Operating Costs
- Undivided Interest
- Guaranteed Liquidity
- Flexibility

Unlike flying with the commercial airlines, Jet Air Systems Charter clients travel anywhere, anytime. Our clients never wait in long airport security lines or busy commercial terminals. Discover why Jet Air Systems has been providing more and more discerning travelers the ultimate in private charter services.

AIRCRAFT CHARTER SERVICES

Air travel with no connecting flights, no annoying security checks, crowds or hassles, and a trip without lost luggage. No more problems and a much more relaxed and less stressful way to fly. Jet Air Systems' Charter offers many advantages over the use of the scheduled airline services. You can save time and energy and you can relax having a private charter aircraft at your disposal. Jet Air Systems puts you in control.

The following is a list of advantages when you charter a private aircraft from Jet Air Systems:

- Create your own schedule, save travel time and be more efficient.
- Select the charter aircraft that specifically fits your needs.
- Pick the services you want on-board your private jet charter flight. Special meals or a certain beverage served on board the aircraft can always be arranged. Cabins can also be set up for either a working or a restful environment.
- Traveling in groups of four or more can be more cost effective when chartering your own aircraft versus flying commercial airlines.
- Privacy, security and comfort are always a part of traveling by charter aircraft.
- Our aircraft can utilize many airports where scheduled services are not available, usually much closer to your destination.
- You can travel with your pets; they are always welcome on board our aircraft.
- You will be on board a Jet Air Systems aircraft from our extensive fleet that we operate, not broker.

Jet Air Systems pricing is subject to change.

Jet Air Private Jet Card - Private Jet Membership

Jet Air Private Jet Card membership is a flexible and risk-free way to enjoy the private jet ownership experience, without the stress. Designed for individuals and corporations who require the highest level of personalized service and predictable pricing, the Jet Air Private Jet Card delivers executive jet solutions built around your unique needs.
